Narrikup 16 show Grit and Growth in a Challenging Matchup

N16 (D4 modified rules) faced Kangas in a tough contest against a strong and experienced side. Kangas made a fast start from the opening centre pass, quickly putting goals on the board with accurate shooting and building an early lead. Despite this, Narrikup showed determination, creating several opportunities on goal and working the ball well down the court with some promising passages of play. Kangas maintained pressure throughout the match and continued to extend their lead, but N16 never stopped competing and worked hard right until the final whistle.

The game showed plenty of positives for Narrikup, with the girls demonstrating strong shoulder passes in the right direction, improving footwork, and most importantly a willingness to never give up. A key focus from the coaches was introducing shadow defending during the week, and it began to show during the match with a number of good intercepts. At halftime, the team responded well to feedback about positioning on the inside for centre passes, which led to noticeable improvement in the second half.

Overall, the performance reflected a team that is continuing to learn and grow each week, becoming more confident with the rules and flow of the game. The girls supported each other both on and off the court, maintained a positive attitude, and most importantly enjoyed themselves throughout. Well done to the whole team for their effort and spirit.
