Smart Netball Leads N12 to Convincing Win

Narrikup 12 produced a convincing 32–21 win over Sonics on Saturday, showcasing one of their most controlled performances of the season. Instead of rushing or forcing the ball, the team focused on slowing the play down and making smart decisions, which created a far more composed and settled style of netball.

A key strength was how consistently the girls came forward to the ball. By driving at the pass rather than waiting for it, they cleaned up their delivery and denied Sonics any easy intercepts.

The team also handled positional changes exceptionally well. Early on there were a few moments of adjustment as players found their space and learned new combinations, but they didn't let it rattle them. As the game progressed, confidence grew, connections strengthened, and the movement down the court became smoother and more purposeful.

By the second half, the defensive unit was picking off turnovers, the mid-court was transitioning the ball with real clarity, and the shooters were finishing beautifully.

Overall, it was an impressive win that highlighted the team's adaptability, composure and ability to adjust quickly while still performing at a high level.
