**Heart, Hustle and Big Steps Forward for N17**

Halfway through the season and what a joy this little team is becoming. Narrikup 17 took on a much taller Railways side, but the girls held their own beautifully, showing just how far they've come already.

It was a tough, end-to-end game with both teams working hard defensively, and it took a while before either side found the net. The first half was full of smart passing, great movement into space and some absolutely fantastic intercepts that had the coaches smiling.

What stood out most was the growth, every week these girls add another layer to their skills, confidence and teamwork. From game one to now, the improvement is huge, and as coaches we couldn't be prouder.

Keep working hard, little legends
