Huge Improvement from Narrikup 15 in Round 9

Round 9 was a brilliant display of how far Narrikup 15 have come this season. The last time these teams met, Kangas won by 14 goals, so to bring that margin down to just four shows enormous improvement and growing confidence across the group. Narrikup started strongly and were up in the first half, moving the ball well and creating space down the court. The game stayed tight from start to finish, with both sides working hard for every opportunity. Although Kangas eventually took the win, it was easily the best game the girls have played yet.

The team's strengths were clear throughout the match. Their ball movement was sharp, they spread out beautifully to open up the court, and they worked together with real purpose. The connection between players was the biggest reason behind their strong performance, and it showed in every passage of play.

Several players stood out across the game. Tiffany and Sam were outstanding in defence, staying close on their opponents and pulling in multiple intercepts that kept Narrikup right in the contest. Mya was a standout in the shooting circle, moving confidently and scoring half of the team's goals in the first quarter, giving Narrikup early momentum.

Overall, it was a good performance that exceeded expectations and highlighted just how much this team has grown.
